**I am usually able to offer you a discount on a block of rooms I had booked. This is not the case this time as I cannot secure a better rate than each member can secure on their own going through a booking/hotel website such as booking.com, hotels.com, trivago.com, etc. For example, I found a price of \$99 per night on one of those websites, but had to go to the actual hotel to get a block of 10-15 rooms and the price went up to \$200+.**

**There is always the camping alternative as there are a lot of campgrounds in the area.**
